

To better serve our patients, we have partnered with CHADIS, a service that allows you to complete questionnaires related to your child's upcoming visit online when it is most convenient for you.

When you use CHADIS, you provide your child's doctor with information in advance for your child's appointment so you can save yourself time in the office and help your provider be best prepared to address your child's needs during the visit.

Through email, you will be invited to:

- Register for CHADIS up to one week in advance of your child's appointment
- Follow the instructions to register
  - Once you have completed your one-time registration, age appropriate questionnaires will be assigned for the upcoming visit.
  - We will continue to contact you one week before upcoming visits that you may access using this same account information.
  - Questionnaires will take about 10-20 minutes, depending on your child's age.

Thank you for your support and helping us to provide the best care possible for your child.
